LOUISA, LAWRENCE COUNTY, KENTUCKY, FEBRUARY 16, 1912.

M. F. CONLEY, Publisher.

OUR OIL FIELD.

Two Wells to be Completed Saturday.

Lease Executed by the County on the Poor House Farm to Huntington Parties.

The Reuben Fork and Cochran wells southwest of Louisa are ready to be drilled in. Work was suspended a few days ago to close up the stock transactions and to notify stockholders who wanted to be present when the wells were completed. Drilling will be resumed Friday morning of this week and should be completed on Saturday morning if no accidents occur. The formations in the wells is reported to be entirely regular and much confidence is shown by the prospectors in the outcome.

The commissioners appointed by the fiscal court of Lawrence county have leased the infirmity farm to Caldwell and York for \$1035 bonus and one-eighth of the oil, with provisions for a cash forfeit if wells are not drilled within specified time. Work on the Bussysville company's well on the land of Mrs. Betty Pigg was delayed a few days by an accident to the boiler, but drilling is again under way.

Several other wells will be started in the next few weeks.

Ed Jones is Market for Oil.

Andrew is one very important point in the oil field at present. He took after in dealing with the Cumberland Pipe Line company, which is preparing to lay a line into the territory. We mean the price they are to receive for the oil.

The grade obtained here from the Beren grit is the same as Pennsylvania and is worth at this time \$1.50 per barrel. Judging from the usual practice in cases where the owners of the wells are at the mercy of the pipe line people, we would get only 82 cents per barrel. The excuse for this is that the oil is necessarily run into a main line carrying mostly the Somerset grade of oil on which a price of 82 cents has been fixed, and that they can not pay more for any than the lowest grade in the line is worth.

The accessibility of the Lawrence county oil field makes it unnecessary to sell the oil at such a sacrifice, and this warning is thrown out so that local people may not enter blindly into any contract that will bind them to sell their oil for less than its worth.

Kentucky Oil Fields. (Manufacturers' Record.)

Barbourville, Ky., January 29. Advancing prices are causing a rapid expansion of the Kentucky petroleum industry, and since the first of the year a large number of new companies have entered the field and have arranged to drill on a large scale.

The crude-oil market has shown three advances during the past two months, and quotations on Kentucky product are now the highest in three years, the better grade commanding 81 cents per barrel. The three successive advances have brought the figures up from 72 cents per barrel, the prevailing quotations two months ago.

The industry is especially expanding in the eastern section of the State, where the development of new holdings has been carried on with untiringly successful results. A large area of heretofore untapped territory has been opened for further developments in the Big Sandy River Valley, near the West Virginia border, the discovery of a deep oil-bearing sand in that direction awakening the trade to a consideration of the possibilities of that, the newest field of the Bluegrass State.

At a depth of 1100 feet sand has been found which shows promise of being equal to the best oil-bearing formation, which has been so widely developed in West Virginia and which yields a large amount of high-grade oil. Sixteen wells have

been drilled into this formation in Lawrence county, Kentucky, and most of them have developed into good producers; the showing being so encouraging that the Cumberland Pipe Line Co., which handles the State's crude-oil production, has decided to extend pipe lines into the new district. A branch line will shortly be extended into the Lawrence county pool from the main extension which enters Kentucky from West Virginia. About a dozen companies have now entered the new pool, and it will constitute one of the most active spots in the Kentucky petroleum districts during the ensuing few months.

The industry has also shown a marked improvement in the lower end of the State since the first of the year. The older pools are being subjected to additional punctures, and a few operators have lately entered untapped fields and will do much prospecting during the remainder of the winter season. New York operators have leased extensively in Cumberland county and will shortly begin the drilling of a number of new wells. This work will be watched with much interest by the trade in general, as it is in an entirely new direction, and may lead to the proving of a profitable extension to lower Kentucky's oil-producing district.

A resume of developments for 1911 show that a total of 126 completions were made in the county, under development yielding an aggregate new production of 1822 barrels. Of this number, 38 completions were non-producers, while three of the number were gas wells. The total yield from all the wells of the State approximates 900,000 barrels. This showing is about on a par with that of the preceding year. The petroleum production came from a widely scattered area, the counties figuring in results for the year including Wayne, Floyd, Wolfe, Minerva, Logan, Hopkins, Boyd, Knott, Lawrence, Henderson, Breckinridge, Hancock and Ohio. Of these Wayne county leads in activity, contributing the greater part of the new production.

In addition to the developments in these counties, a large amount of work was accomplished in other sections, in counties in the infancy of development, and marked gains resulted from this new work. As a result of the activity of prospectors a number of new fields were tried out, and may be possible sources of new production, with the further developments which the ensuing year will bring.

The new developments in Eastern Kentucky resulted from the past year's test work, and these will figure extensively in the yield in 1912, as is placing the industry on a more profitable scale, and from present indications the record of operations during 1912 will greatly exceed that of the past year.

W. R. HUDSON.

KILLED TWO MEN.

Pike County Officer Shoots Parties Resisting Arrest.

Louis Hall and his son Morgan were killed at Millard Burke's store, Shelby Gap, Pike county, by Constable George Johnson, who had a warrant for Morgan's arrest. They resisted and the officer shot both, killing them instantly. The charge was illicit liquor selling. Louis Hall was 83 years old and had a bad record. He killed three men named Steel on Tug about ten years ago in a fight over whiskey.

BYINGTON-CRAVEN.

On Wednesday afternoon, February 14, at the home of the bride's parents, Miss Willie Maude Byington was married to Mr. William Arthur Craven, of Merrimac, Pike county, Ky. The Rev. J. W. Criswell, pastor of the M. M. Church South, performed the ceremony. The bride is the oldest daughter of Prof. and Mrs. W. M. Byington of this city, and the groom is the superintendent of the mine at Merrimac. The mother of the groom, Mrs. Jan Craven, of Dayton, O., attended the wedding. Mr. and Mrs. Craven left for Merrimac shortly after the ceremony.

Is With Large Concern.

Messrs. Braid & Hutton, who are now preparing the first floor of their building on the corner of Bryan and Whitaker streets, for the inauguration of stationery business, hope to have it ready for occupancy in about two weeks time.

Mr. W. E. Eldridge, of Ashland, Ky., who is to have charge of the stationery department reached the city this morning and will give his personal attention to the placing the fixtures and the stock.

With the addition of the line of stationery, Braid & Hutton will occupy the entire block in which their business has been located since the company has formed. The company is now the only occupant of this block, extending for two floors with a frontage of 120 by 90 feet.

The Ashland Independent says of the departure of Mr. Eldridge for Savannah:

"Ashland loses valuable citizens when Mr. and Mrs. Eldridge leave here, where they have so many warm friends. Mrs. Eldridge is an enthusiastic member of the Woman's Club and she will be missed both socially and in church work. Mr. Eldridge leaves here about the 25th of the month, while Mrs. Eldridge and little daughter will visit relatives in Ohio before going to their new home in the South—Savannah (Ga.) News."

A VISIT TO CUBA

Interesting Trip Made by a Wayne County Man.

Pharoah Osborn, manager of one of the stores of the big coal company at Holden, Va., is visiting his father and brother at Port Gay. He has been taking a vacation for a few weeks and most of this time was spent in a trip through the South. He visited Cuba and found it a very interesting place. He and his wife were at Jacksonville, Florida, for some time. On January 23rd Mr. Osborn went to Key West by way of the new railroad line which sent the first passenger train into that town the day before. This line is 123 miles long, 75 of which is built in the waters of the ocean and gulf on concrete arches. The remaining 48 miles is on small islands or keys scattered along the route. It is considered the greatest engineering feat yet accomplished in this country. Henry M. Flagler, age 84 years, conceived the great scheme and put into it the millions he made as a Standard Oil company stockholder. The cost of the road was \$150,000 per mile.

Mr. Osborn says the trains were as great a sight to many of the citizens of Key West as they are to mountain people in the remote regions, as there were numbers of them who had never seen a railroad train. Key West is a town in which cigar manufacturers are the only industries. There is but one hotel in the place and it is small. The rush of tourists eager to make the trip over this remarkable railway was so great that the town was "swamped."

From Key West to Havana is 90 miles and a line of boats is now reaping a rich harvest at \$21 per passenger for the round trip.

At the time referred to the thermometer here were having a hard time registering anything above zero in Southern Florida and in Cuba was mid-summer temperature. Mr. Osborn said many of the tourists bought light clothing, straw hats and low cut shoes in Havana in order to be comfortable while there for only a few days. The ocean breezes encountered on the steamer are described as most delightfully welcome upon leaving hot Havana.

Mr. Osborn saw tropical fruits of all kinds growing in Cuba. Tobacco in all stages of growth was seen, from the setting of the young plants to the cutting of the ripe stalk.

Florida is all right to visit in winter for pleasure, but Mr. Osborn says it is a poor country to locate in, and warns the people against advertising of worthless lands. He has been done lately and thousands of people have been caught. In one of these sections that he saw it requires \$55 worth of fertilizer per acre each year to make the land produce.

HUGHES-SMITH.

Elaborate Wedding at Huntington Last Week.

One of the most beautiful and elaborate weddings that has taken place in southern West Virginia for a long time was the one that was solemnized at the Christian Church in Huntington on the evening of February 8, at 8 o'clock. It was then that Miss Eloise Hughes, the charming daughter of Congressman and Mrs. James A. Hughes, became the bride of Mr. Lucian Phillip Smith, a member of one of Morgan-town's most prominent families.

The church was filled to overflowing with admiring friends of both bride and groom and the decorations were most tasteful and beautiful. The ceremony was extremely impressive, the ring ritual being performed by Rev. Dee St. John, pastor of the West Moreland Christian church.

The bride entered the church on the arm of her father and was met at the altar by the groom and his best man, Mr. James Smith, of Dawson, Pa.

The bride's gown was a white satin of great beauty, richly ornamented with rose point lace, and a court train three yards in length. The filmy bridal veil was gracefully draped.

The attendants were: Mrs. Donald Clark, of West Moreland; Mrs. Frank M. Seamons, of Uniontown, Pa., matrons of honor; Misses Mary Leck, Cassell, of Lexington, Ky.; Ruth Campbell and Louise Hawkins, of Huntington; Victoria Garred, of Louisa, Ky.; Crete McClure, of Wayne, W. Va.; and Miss Wilson, of Westmoreland, were the maids, and looked charming in gowns of pink and blue messaline and carried muffs of smilax and Killarney roses. Miss Tudell Hughes, sister of the bride, was maid of honor and looked handsome in a gown of green messaline gracefully draped.

Immediately after the ceremony a reception and dance was held at the Frederick hotel.

Mr. and Mrs. Smith will make an extended tour of Europe.—Ceredo Advance.

Dams on Elkhorn.

Work is being pushed upon a large concrete dam across Little Elkhorn, immediately above the new city of Jenkins. The dam will create a reservoir with a capacity of 65,000,000 gallons, and will supply Jenkins with water for municipal and domestic purposes. Higher up on Little Elkhorn, Goodwater dam, with a storage capacity of 1,000,000 gallons, has been completed.

CHEAPER GAS.

Effort Now On Foot to Get a 20 cent Rate.

The people of Huntington and Ashland are being supplied with gas at the set rate of twenty cents per thousand feet. The same company, the United Fuel Gas Company, is charging the citizens of Louisa twenty-five cents a net. This is being done in violation of the spirit and intent of the charter granted to this company by the City of Louisa, and in direct violation of the contract made with Mr. Alexander Lackey for right of way through his farm.

We called attention to this matter two or three times last summer, but nothing was done until the recent council meeting, when M. S. Burns was appointed to bring suit against the company. He has already taken up the subject with the officials and has received certain assurances which encourage the belief that the matter will be adjusted without suit.

Louisa is certainly entitled to the privilege of buying gas under the same proposition that is offered to other towns on the line, but the gas company will not make the concession until forced to do so.

Close of the Meeting.

The series of meetings which began at the Baptist church February 4th closed on Tuesday night. The services were conducted by the Rev. Harmond Holcomb, assisted by Mr. and Mrs. Blankenship singers, a Dallas, Texas. Much interest was manifested throughout the entire meeting, the spacious church being filled nightly. On Sunday night the building was completely filled, every inch of sitting space and standing room being occupied. Mr. Holcomb is a fine preacher, and the singing of Mrs. Blankenship was worth going a long distance to hear. Much good will no doubt result from these meetings.

Mr. Holcomb and Mr. and Mrs. Blankenship went to Catlettsburg Wednesday morning and will hold a series of services in the Baptist Church in that city.

SERIOUS OPERATION.

Mrs. Myrtle Charles, of Inez, is in Riverview hospital recovering nicely after a serious operation to which she submitted a few days ago. The operation was the removal of a cystic tumor which weighed 40 pounds, and was performed by Dr. L. H. York, assisted by Mrs. Bromley and Wellman. The patient is a small woman, weighing about 90 pounds, and is 23 years old.

FRED O'BRIEN DEAD.

Prominent Citizen of Williamson Passes Away.

Mr. Fred W. O'Brien, reared in this city, who had a large number of admiring friends in this community, passed from this life to his eternal rest on last Saturday night. He has taken a prominent part in the every day events of this city and section for many years. He has edited a newspaper in this city for a long time and has held positions of trust in other capacities with care and credit. His unexpected death was a surprise to most of our people and it was very sad, indeed, that one just in the prime of manhood should be taken from family and friends. He was a young man of kindly disposition and a true friend to all with whom he came in contact. Reserved in manner, he was always pleasing and courteous to all. No one thought that he was lingering in the shadow of death or even failing in health, and his sudden passing away has shown how uncertain is the lease of life. His funeral was attended by a large number of our citizens and many of his relatives were present at the funeral to pay their last respects. The mysteries of Providence we cannot fathom and it is with the deepest regret that we chronicle this sad death of our young townsman, who had so much promise before him. He leaves a wife and one child and many sorrowing relatives to mourn his untimely death. To all of them, and friends alike, we extend our sympathies and condolence. May his ashes rest in peace and his spirit exist in a happier and better sphere.—Williamson Enterprise.

GIVE US BETTER SERVICE.

The NEWS very rarely complains, but it seems to us that the menace to property and health that is facing Louisa so frequently of late demands some notice. We refer to the waterworks situation. The town is paying to the water company more of the money collected in taxes than for anything else. The dangers of fire and disease and the great inconvenience to citizens depending upon the waterworks are of such importance that the company should provide better facilities for keeping a constant supply of water. One engine is not sufficient to depend upon for pumping. There should be two engines and pumps so that in case of a break-down in one, the other could be put into use immediately. As it now stands we must do without water for days when a break occurs.

The public school has been compelled to disperse yesterday because of the failure of the water supply.

Joe Piggett, who has typhoid, is getting better.

FOR BURGLARY.

Two Young Men Arrested for Robbing Louisa Furniture Co.

Tinker Pigg and Frank Justice, both of this place, are in the Lawrence county jail awaiting a trial for robbery. Pigg was arrested at his home last Tuesday morning, and Justice was arrested on the Fort Gay end of the bridge on Wednesday. Both are charged with breaking into the store of the Louisa Furniture Co., and taking therefrom a large quantity of miscellaneous goods, consisting of cloaks, wraps, hats, skirts, furs, shoes and men's clothing.

The store was broken into on last Monday night, and the burglary was made known when the salesman opened for business Tuesday morning. Things inside the store were in disorder, and it took very few minutes to get on the trail. Goods were scattered on the street in the vicinity of the building, and it was soon discovered that the room where the men's clothing is kept had also been broken into and robbed. Search for the stolen property led to the discovery of a huge pile of miscellaneous articles under the very barn of Queen and Bolt, all the property of the Louisa Furniture Co.

Suspect fell upon Tinker Pigg as being one of the guilty parties and he was at once placed under arrest and later lodged in jail. When he was arrested and searched it was found that all the clothes he had on bore the mark of Louisa Furniture Co. Upon him were also found a brand new pig and about a double handful of ridges.

It was suspected that something directly connected with the robbery might be found in Port Gay, and search was made at the house occupied there by Frank Justice, who had married in that town. The results justified the suspicion, as a large amount of the Furniture Company's goods was found and brought to Louisa.

This sort of depredation has been going on in Louisa for some time. Dixon, Moore & Co. have lost quite an amount of goods, entrance to their wholesale grocery having been effected by cutting through the back windows. The firm has no means of determining the amount of goods taken. It is said that goods of various kinds have been stolen here and sold in Williamson. It is also believed that the men in jail are only a part of a band of thieves who have been operating in this city for a good while. It is hoped that the arrest of Justice and Pigg may lead to the apprehension and punishment of the entire gang. Pigg has only recently returned to Louisa after serving a time at Frankfort for the robbery of the same premises which he is charged with having burglarized last Monday night.

DIED ON THE TRAIN.

The little 5-year-old daughter of Mr. and Mrs. W. J. Curry, of Burch, Mingo county, died on the train, No. 3, N. & W. last Tuesday, just before reaching this place. The child was afflicted with appendicitis and they were en route to a Huntington hospital to have an operation performed. Dr. Burgess, of Williamson, and Dr. Burgess, of Louisa, accompanied Mr. and Mrs. Curry here.—Ceredo Advance.

TO REBUILD BIG TANKERY.

The Ashland Leather Company has accepted plans for rebuilding its tannery, previously destroyed by fire. Its new buildings will cost \$100,000. The buildings will be of fireproof construction. An unconfirmed report states that the mechanical equipment will be electrically driven by a 350-horse-power engine and a 100-kilowatt generator, and have a daily capacity of 400 sole-leather hides.

M. F. CONLEY, Publisher.

OUR OIL FIELD.

Two Wells to be Completed Saturday.

Lease Executed by the County on the Poor House Farm to Huntington Parties.

The Reuben Fork and Cochran wells southwest of Louisa are ready to be drilled in. Work was suspended a few days ago to close up the stock transactions, and to notify stockholders who wanted to be present when the wells were completed. Drilling will be resumed Friday morning of this week and should be completed on Saturday morning if no accidents occur. The formations in the wells is reported to be entirely regular and much confidence is shown by the projectors in the outcome.

The commissioners appointed by the fiscal court of Lawrence county have leased the infirmity farm to Caldwell and York for \$1055 bonus and one-eighth of the oil, with provisions for a cash forfeit if wells are not drilled within specified time. Work on the Busseyville company's well on the land of Mrs. Betty Pigg was delayed a few days by an accident to the boiler, but drilling is again under way.

Several other wells will be started in the next few weeks.

Market for Oil.
Beside one very important point of the local oil field, the people of the local oil field took after in dealing with the Cumberland Pipe Line company, which is preparing to lay a line into the territory. We mean the price they are to receive for the oil.

The grade obtained here from the Berea grit is the same as Pennsylvania and is worth at this time \$1.50 per barrel. Judging from the usual practice in cases where the owners of the wells are at the mercy of the pipe line people, we would get only 82 cents per barrel. The excuse for this is that the oil is necessarily run into a main line carrying mostly the Somerset grade of oil on which a price of 82 cents has been fixed, and that they can not pay more for any than the lowest grade in the line is worth.

The accessibility of the Lawrence county oil field makes it unnecessary to sell the oil at such a sacrifice, and this warning is thrown out so that local people may not enter blindly into any contract that will bind them to sell their oil for less than its worth.

Kentucky Oil Fields.
(Manufacturers' Record.)
Barbourville, Ky., January 29. Advancing prices are causing a rapid expansion of the Kentucky petroleum industry, and since the first of the year a large number of new companies have entered the field and have arranged to drill on a large scale.

The crude-oil market has shown three advances during the past two months, and quotations on Kentucky product are now the highest in three years, the better grade commanding 81 cents per barrel. The three successive advances have brought the figures up from 72 cents per barrel, the prevailing quotations two months ago.

The industry is especially expanding in the eastern section of the State, where the development of new holdings has been carried on with unusually successful results. A large area of heretofore untold territory has been opened for further developments in the Big Sandy River Valley, near the West Virginia border, the discovery of a deep oil-bearing sand in that direction awakening the trade to a consideration of the possibilities of that, the newest field of the Blue-grass State.

At a depth of 1100 feet a sand has been opened which experts pronounce identical to the well-known grit formation, which has been so widely developed in West Virginia and which yields a large amount of high-grade oil. Sixteen wells have

been drilled into this formation in Lawrence county, Kentucky, and most of them have developed into good producers, the showing being so encouraging that the Cumberland Pipe Line Co., which handles the State's crude-oil production, has decided to extend pipe lines into the new district. A branch line will shortly be extended into the Lawrence county pool from the main extension which enters Kentucky from West Virginia. About a dozen companies have now entered the new pool, and it will constitute one of the most active spots in the Kentucky petroleum districts during the ensuing few months.

The industry has also shown a marked improvement in the lower end of the State since the first of the year. The older pools are being subjected to additional punctures, and a few operators have lately entered untold fields and will do much prospecting during the remainder of the winter season. New York operators have leased extensively in Cumberland county and will shortly begin the drilling of a number of new wells. This work will be watched with much interest by the trade in general, as it is in an entirely new direction, and may lead to the proving of a profitable extension to lower Kentucky's oil-producing district.

A resume of developments for 1911 show that a total of 126 completions were made in the county, under development yielding an aggregate new production of 1822 barrels. Of this number, 33 completions were non-producers, while three of the number were gas wells. The total yield from all the wells of the State approximates 500,000 barrels. This showing is about on a par with that of the preceding year. The petroleum production came from a widely scattered area, the counties figuring in results for the year including Wayne, Floyd, Wolfe, Mingo, Logan, Hopkins, Boyd, Knott, Lawrence, Henderson, Breckinridge, Hancock and Ohio. Of these Wayne county leads in activity, contributing the greater part of the new production.

In addition to the developments in these counties, a large amount of work was accomplished in other sections, in counties in the infancy of development, and marked gains resulted from this new work. As a result of the activity of prospectors a number of new fields were tried out, and may be possible sources of new production, with the further developments which the ensuing year will bring.

The new developments in Eastern Kentucky resulted from the past year's test work, and these will figure extensively in the yield in 1912, as is placing the industry on a more profitable scale, and from present indications the record of operations during 1912 will greatly exceed that of the past year.

W. B. HUDSON.

KILLED TWO MEN.

Pike County Officer Shoots Parties Resisting Arrest.

Louis Hall and his son Morgan were killed at Millard Burke's store, Shelby Gap, Pike county, by Constable George Johnson, who had a warrant for Morgan's arrest. They resisted and the officer shot both, killing them instantly. The charge was illicit liquor selling. Louis Hall was 83 years old and had a bad record. He killed three men named Steel on Tug about ten years ago in a fight over whiskey.

BYINGTON-CRAVEN.

On Wednesday afternoon, February 14, at the home of the bride's parents, Miss Willia Maude Byington, was married to Mr. William Arthur Craven, of Merrimac, Pike county, Ky. The Rev. J. W. Crites, pastor of the M. E. Church South, performed the ceremony. The bride is the oldest daughter of Prof. and Mrs. W. M. Byington, of this city, and the groom is the superintendent of the mines at Merrimac. The mother of the groom, Mrs. Jas. Craven, of Dayton, O., attended the wedding. Mr. and Mrs. Craven left for Merrimac shortly after the ceremony.

Is With Large Concern.

Messrs. Braid & Hutton, who are now preparing the first floor of their building on the corner of Bryan and Whitaker streets, for the inauguration of stationery business, hope to have it ready for occupancy in about two weeks time.

Mr. W. E. Eldridge, of Ashland, Ky., who is to have charge of the stationery department, reached the city this morning and will give his personal attention to the placing of the fixtures and the stock.

With the addition of the line of stationery, Braid & Hutton will occupy the entire block in which their business has been located since the company has formed. The company is now the only occupant of this block, extending for two floors with a frontage of 120 by 90 feet.

The Ashland Independent says of the departure of Mr. Eldridge for Savannah:

"Ashland loses valuable citizens when Mr. and Mrs. Eldridge leave here, where they have so many warm friends. Mrs. Eldridge is an enthusiastic member of the Woman's Club and she will be missed both socially and in church work. Mr. Eldridge leaves here about the 25th of the month, while Mrs. Eldridge and little daughter will visit relatives in Ohio before going to their new home in the South.—Savannah (Ga.) News.

A VISIT TO CUBA

Interesting Trip Made by a Wayne County Man.

Pharoah Osborn, manager of one of the stores of the big coal company at Holden, W. Va., is visiting his father and brother at Port Gay. He has been taking a vacation for a few weeks and most of this time was spent in a trip through the South. He visited Cuba and found it a very interesting place. He and his wife were at Jacksonville, Florida, for some time. On January 23rd Mr. Osborn went to Key West by way of the new railroad line which sent the first passenger train into that town the day before. This line is 129 miles long, 75 of which is built in the waters of the ocean and gulf on concrete arches. The remaining 54 miles in on small islands or keys scattered along the route. It is considered the greatest engineering feat yet accomplished in this country. Henry M. Flagler, age 84 years, conceived the great scheme and put into it the millions he made as a Standard Oil company stockholder. The cost of the road was \$150,000 per mile.

Mr. Osborn says the trains were as great a sight to many of the citizens of Key West as they are to mountain people in the remote regions, as there were numbers of them who had never seen a railroad train. Key West is a town in which cigar manufacturers are the only industries. There is but one hotel in the place and it is small. The rush of tourists eager to make the trip over this remarkable railway was so great that the town was "swamped."

From Key West to Havana is 90 miles and a line of boats is now reaping a rich harvest at \$21 per passenger for the round trip.

At the time referred to the thermometers here were having a hard time registering anything above zero in Southern Florida and in Cuba was mid-winter temperature. Mr. Osborn said many of the tourists bought light clothing, straw hats and low cut shoes in Havana, in order to be comfortable while there if only for a few days. The ocean breezes encountered on the steamer are described as most delightfully welcome upon leaving hot Havana.

Mr. Osborn saw tropical fruits of all kinds growing in Cuba. Tobacco in all stages of growth was seen, from the setting of the young plants to the cutting of the ripe stalk.

Florida is all right to visit in winter for pleasure, but Mr. Osborn says it is a poor country to locate in, and warns the people against investing in lands there. Extensive advertising of worthless lands has been done lately and thousands of people have been caught. In one of these sections that he saw it requires \$65 worth of fertilizer per acre each year to make the land produce.

HUGHES--SMITH.

Elaborate Wedding at Huntington Last Week.

One of the most beautiful and elaborate weddings that has taken place in southern West Virginia for a long time was the one that was solemnized at the Christian Church in Huntington on the evening of February 8, at 8 o'clock. It was when that Miss Eloise Hughes, the charming daughter of Congressman and Mrs. James A. Hughes, became the bride of Mr. Lucian Phillip Smith, a member of one of Morgantown's most prominent families.

The church was filled to overflowing with admiring friends of both bride and groom and the decorations were most tasteful and beautiful. The ceremony was extremely impressive, the ring ritual being performed by Rev. Dee St. John, pastor of the West Moreland Christian church.

The bride entered the church on the arm of her father and was met at the altar by the groom and his best man, Mr. James Smith, of Dawson, Pa.

The bride's gown was a white satin of great beauty, richly ornamented with rose point lace, and a court train three yards in length. The filmy bridal veil was gracefully draped.

The attendants were: Mrs. Donald Clark, of West Moreland; Mrs. Frank M. Seamons, of Unontown, Pa., matrons of honor; Misses Mary Lenn Cassell, of Lexington, Ky.; Ruth Campbell and Louise Hawkins, of Huntington; Victoria Garred, of Louisa, Ky.; Crete McClure, of Wayne, W. Va., and Miss Wilson, of Westmoreland, were the maids, and looked charming in gowns of pink and blue messaline and carried muffs of smilax and Killarney roses. Miss Tudell Hughes, sister of the bride, was maid of honor and looked handsome in a gown of green messaline gracefully draped.

Immediately after the ceremony a reception and dance was held at the Frederick hotel.

Mr. and Mrs. Smith will make an extended tour of Europe.—Ceredo Advance.

Dams on Elkhorn.

Work is being pushed upon a large concrete dam across Little Elkhorn, immediately above the new city of Jenkins. The dam will create a reservoir with a capacity of 65,000,000 gallons, and will supply Jenkins with water for municipal and domestic purposes. Higher up on Little Elkhorn, Goodwater dam, with a storage capacity of 1,000,000 gallons, has been completed.

CHEAPER GAS.

Effort Now On Foot to Get a 20 cent Rate.

The people of Huntington and Ashland are being supplied with gas at the net rate of twenty cents per thousand feet. The same company, the United Fuel Gas Company, is charging the citizens of Louisa twenty-five cents net. This is being done in violation of the spirit and intent of the charter granted to this company by the City of Louisa, and in direct violation of the contract made with Mr. Alexander Lackey for right of way through his farm.

We called attention to this matter two or three times last summer, but nothing was done until the recent council meeting, when M. S. Burns was appointed to bring suit against the company. He has already taken up the subject with the officials and has received certain assurances which encourage the belief that the matter will be adjusted without suit.

Louisa is certainly entitled to the privilege of buying gas under the same proposition that is offered to other towns on the line, but the gas company will not make the concession until forced to do so.

Close of the Meeting.

The series of meetings which began at the Baptist church February 4th closed on Tuesday night last. The services were conducted by the Rev. Harmon Holcomb, assisted by Mr. and Mrs. Blankenship singers, Dallas, Texas. Much interest was manifested throughout the entire meeting, the spacious church being filled nightly. On Sunday night the building was completely filled, every inch of sitting space and standing room being occupied. Mr. Holcomb is a fine preacher, and the singing of Mrs. Blankenship was worth going a long distance to hear. Much good will no doubt result from these meetings.

Mr. Holcomb and Mr. and Mrs. Blankenship went to Catlettsburg Wednesday morning and will hold a series of services in the Baptist Church in that city.

SERIOUS OPERATION.

Mrs. Myrtle Charles, of Inez, is in Riverview hospital recovering nicely after a serious operation to which she submitted a few days ago. The operation was the removal of a cystic tumor which weighed 40 pounds, and was performed by Dr. L. H. York, assisted by Mrs. Bromley and Weisman. The patient is a small woman, weighing about 90 pounds, and is 23 years old.

FRED O'BRIEN DEAD.

Prominent Citizen of Williamson Passes Away.

Mr. Fred W. O'Brien, reared in this city, who had a large number of admiring friends in this community, passed from this life to his eternal rest on last Saturday night. He has taken a prominent part in the every day events of this city and section for many years. He has edited a newspaper in this city for a long time and has held positions of trust in other capacities with care and credit. His unexpected death was a surprise to most of our people and it was very sad, indeed, that one just in the prime of manhood should be taken from family and friends. He was a young man of kindly disposition and a true friend to all with whom he came in contact. Reserved in manner, he was always pleasing and courteous to all. No one thought that he was lingering in the shadow of death or even failing in health, and his sudden passing away has shown how uncertain is the lease of life. His funeral was attended by a large number of our citizens and many of his relatives were present at the funeral to pay their last respects. The mysteries of Providence we cannot fathom and it is with the deepest regret that we chronicle this sad death of our young townsman, who had so much promise before him. He leaves a wife and one child and many sorrowing relatives to mourn his untimely death. To all of them, and friends alike, we extend our sympathies and condolence. May his ashes rest in peace and his spirit exist in a happier and better sphere.—Williamson Enterprise.

GIVE US BETTER SERVICE.

The NEWS very rarely complains, but it seems to us that the menace to property and health that is facing Louisa so frequently of late demands some notice. We refer to the waterworks situation. The town is paying to the water company more of the money collected in taxes than for anything else. The dangers of fire and disease and the great inconvenience to citizens depending upon the waterworks are of such importance that the company should provide better facilities for keeping a constant supply of water. One engine is not sufficient to depend upon for pumping. There should be two engines and pumps so that in case of a break-down in one, the other could be put into use immediately. As it now stands we must do without water for days when a break occurs.

The public school was compelled to dismiss yesterday because of the failure of the water supply. Joe Piggett, who has typhoid, is getting better.

FOR BURGLARY.

Two Young Men Arrested for Robbing Louisa Furniture Co.

Tinker Pigg and Frank Justice, both of this place, are in the Lawrence county jail awaiting a trial for robbery. Pigg was arrested at his home last Tuesday morning, and Justice was arrested on the Fort Gay end of the bridge on Wednesday. Both are charged with breaking into the store of the Louisa Furniture Co., and taking therefrom a large quantity of miscellaneous goods, consisting of cloaks, wraps, hats, skirts, furs, shoes and men's clothing.

The store was broken into on last Monday night, and the burglary was made known when the salesman opened for business Tuesday morning. Things inside the store were in disorder, and it took very few minutes to get on the trail. Goods were scattered on the street in the vicinity of the building, and it was soon discovered that the room where the men's clothing is kept had also been broken into and robbed. Search for the stolen property led to the discovery of a huge pile of miscellaneous articles under the barn of Queen and Bolt, all the property of the Louisa Furniture Co.

Suspicion fell upon Tinker Pigg as being one of the guilty parties and he was at once placed under arrest and later lodged in jail. When he was arrested and seen it was found that all the clothes he had on bore the mark of Louisa Furniture Co. Upon his ship were also found a brand new pair of shoes and about a double handful of clothes.

It was suspected that something directly connected with the robbery might be found in Fort Gay, and search was made of the house occupied there by Frank Justice, who had married in that town. The results justified the suspicion, as a large amount of the Furniture Company's goods was found and brought to Louisa.

This sort of depredation has been going on in Louisa for some time. Dixon, Moore & Co. have lost quite an amount of goods, entrance to their wholesale grocery having been effected by cutting through the back windows. The firm has no means of determining the amount of goods taken. It is said that goods of various kinds have been stolen here and sold in Williamson. It is also believed that the men in jail are only a part of a band of thieves who have been operating in this city for a good while. It is hoped that the arrest of Justice and Pigg may lead to the apprehension and punishment of the entire gang. Pigg has only recently returned to Louisa after serving a time at Frankfort for the robbery of the same premises which he is charged with having burglarized last Monday night.

DIED ON THE TRAIN.

The little 5-year-old daughter of Mr. and Mrs. W. J. Curry, of Burch, Mingo county, died on the train, No. 3, N. & W. last Tuesday, just before reaching this place. The child was afflicted with appendicitis and they were en route to a Huntington hospital to have an operation performed. Dr. Burgess, of Williamson, and Dr. Burgess, of Louisa, accompanied Mr. and Mrs. Curry here.—Ceredo Advance.

TO REBUILD BIG TANNERY.

The Ashland Leather Company has accepted plans for rebuilding its tannery, previously destroyed by fire. Its new buildings will cost \$100,000. The buildings will be of fireproof construction. An unconfirmed report states that the mechanical equipment will be electrically driven by a 150-horse-power engine and a 100-kilowatt generator, and have a daily capacity of 400 sole-leather hides.

PARADISE LOST.

Second Sermon on Paradise Lost by Dr. Hanford, at the M. E. Church. Subject: "The Peers of Hell." Parliament; Their Object and History.

ITEMS OF INTEREST FROM MANY STATES

Important News Gathered from Abroad for the Benefit of Our Readers.

The wreck of the battleship Maine was floated free of the mud in Havana harbor yesterday and soon will be outside the cofferdam.

A premature explosion on construction work on the Canadian Northern railway killed twelve men and seriously injured five others.

With the session of the Kentucky Legislature about half completed, bills have been introduced creating 124 new offices and calling for the expenditure of nearly \$2,000,000.

The Rev. Dr. MacArthur, president of the Baptist World Alliance, announced in New York that permission had been obtained from the Russian Emperor to build a Baptist college in St. Petersburg.

Secretary of State Knox's visit to Central America is regarded by diplomats as a notice to Europe of the intention of the United States that it will continue to uphold the Monroe Doctrine.

Maysville, Ky., Feb. 10.—A skiff containing three Aberdeen citizens was caught between two huge floes of ice while attempting to cross the river here and drifted forty minutes before the occupants got out. Harry Thomas was almost frozen.

Whitesburg, Ky., Feb. 10.—Martha Banks, thirty-five, was attacked by an epileptic fit in her home in this county and fell into the fire and was fatally burned, dying the following day. She was a sister of Wesley Banks.

vitality of the Standard Oil is of highest encouragement. It will go through their second summer with gratifying prosperity; in point of fact, has got to the age of growth where it can cut a lion, curiously enough of just the size as the famous Landis.

Active work for the renomination and re-election of President Taft, aside from that done at the White House, began in Washington, when Representative William B. McKinley of Illinois, chairman of the Republican Congressional Campaign Committee, took up his new duties as manager of the Taft campaign.

Augusta, Ky., Feb. 12.—D. F. List, superintendent of the Bracken County Infirmary, had an exciting experience with a strange animal supposed to be a puma, near the county farm Saturday. The animal was discovered on the hillside, close to a vacant barn, and was preparing to kill some sheep when discovered. Mr. List procured a shotgun and backed the puma to his lair under some oats in the barn, where he

was dislodged by some dogs, but two shots failed to bring him down, and the dogs being afraid to take up its trail the animal escaped. The puma is supposed to have escaped from a traveling circus last summer and hunger is thought to have forced it to make an effort to kill the sheep in day-time. Farmers in that vicinity report the loss of a number of sheep recently.

Fire at Salt Lick, Bracken county, a few nights ago destroyed two houses belonging to Thomas Rozor, and considerable damaged a house occupied by Dr. Zack Wells. The only means of fighting the fire for some time was cutting chunks of ice and throwing them on it. There was no insurance on the property.—Maysville Bulletin.

If the conditions are favorable from now on there will be a fine fruit crop in Henderson county during the year 1912. Henry Gruenig, who manages the large fruit farm of William J. Marshall, on the Zion road near the city, brought into the Gleaner office an arful of small branches taken from apple, cherry and peach trees. These branches show that the trees are full of live fruit buds that will make fruit if weather conditions are favorable from now on.—Henderson Gleaner.

Malden, Mass., Feb. 9.—Abraham Levine and his three children were weeping over the coffin brought for Mrs. Levine, the wife and mother, when Abraham, opening the casket for one last look at his wife, discovered that the body was not hers.

Mrs. Levine had been a patient at the Tewkesbury Hospital, and Abraham had received word that she was dead. Investigation today showed that his wife is still alive, and that the mistake had been due to the fact that the name of the dead woman was somewhat similar.

Pittsburgh, Feb. 11.—With the thermometer registering 4 degrees above zero, twenty-seven colored men and women, recent converts to the Mt. Zion African Methodist Episcopal church of Brownsville, near here were immersed in the icy waters of the Monongahela river today. The immersions were witnessed by several thousand persons, who shivered on the river banks and huddled close to fires built by small boys.

In order to get the ceremony under way, it was necessary to cut a hole in the ice. Carriages were in waiting and as fast as the converts came out of the water they were wrapped in blankets and driven to their homes.

A great bald eagle was caught in a steel trap near Rock Camp, this county, last Sunday morning Jan. 21

by two boys, Porter Smith son of Mr. D. C. Smith and Lacy Raines son of Mr. Reed Raines. The eagle had been ravaging flocks of poultry in that section, seizing and carrying off grown chickens, ducks and turkeys. With the carcass of a turkey the boys baited two steel traps and when they visited the snare Sunday morning they found the big pirate of the air fairly caught in both. They bound their prisoner and carried him home alive and still have him on exhibition. The eagle measures seven feet and two inches from tip of wings, and the two proudest boys in Monroe county are his captors.—Monroe Watchman.

Campton, Ky., Feb. 10.—In a quarrel between Thomas McPherson and Henry Fryle, brother-in-law, McPherson was shot in the arm and Fryle was stabbed ten times. While trying to separate the combatants Mrs. Fryle was shot in the stomach, and is not expected to live. No arrests have been made, owing to the condition of the wounded.

Frankfort, Ky., Feb. 10.—The State Board of Equalization met at 11:30 o'clock to-day and organized by electing M. J. Meagher, of Frankfort, chairman, and the following secretaries: Rowan Sautley, of Stanford; W. W. Longmoor, of Frankfort, and Victor Packwood, of Richmond. The secretaries will begin at once to check up the Assessor's books and later the board will pass on the assessments and make tentative raises on counties that may have to be raised.

Maysville, Ky., Feb. 7.—Stanley Roberts a farmer living one and one half miles south of Buford, Brown county, O., caught an immense golden eagle in a steel trap a day or two ago. He had set and baited and set the trap to capture a chicken-hawk that had been stealing his poultry. The eagle put up a game fight before he was killed. It was discovered that he had a piece of an old fashioned iron trap around its foot. It had probably been caught in a trap before and freed itself. The eagle measured six feet and eight inches from the tip ends of its wings. It will be given to a taxidermist to mount.

Lexington, February 10.—While dozing peacefully before the open fire in her home at 209 Wickliffe street Thursday night, "Granny" Graves, an old negro said to be 102 years old, fell forward into the fireplace and was so severely burned about the face and chest that she died Friday morning at 5 o'clock at the colored ward of St. Joseph's hospital, where she was taken in the city ambulance immediately after the pitiable accident occurred. The helpless old woman was unable to raise herself from the fireplace and was rescued by other members of the household who heard her cries.

A man with an unusual record passed away at his home in the Popular Plains precinct last Wednesday night, in the death of Squire N. F. Hurst, aged 89 years and four months. Besides being one of the oldest citizens of the county, Squire Hurst had a record of serving as magistrate and constable which for continuity probably outrivals that of any other man in the State of Kentucky, and possibly in the United States. Mr. Hurst was elected constable of Fleming county in 1852 and four years later was elected magistrate for his precinct. Since then he had been re-elected continually as magistrate, thus making him a magistrate of this county continuously up until the time of his death, an unbroken period of over fifty-five years as magistrate and fifty-nine years as magistrate and constable.—Flemingburg Gazette.

Frankfort, Ky., Feb. 10.—A representative of the Agricultural Department of Washington is here today, conferring with Agricultural Commissioner Newman in reference to the Government aiding the State of Kentucky in the education of the farmers and boys of the State in agricultural pursuits.

The amount the Government will give will be controlled, in a measure, by the amount the State appropriates for that purpose. If the bill now before the Legislature is passed the Government will contribute something over \$10,000 a year, which will be used to encourage boys' corn clubs and in the distribution of literature to farmer boys all over the State.

Glasgow, Ky., Feb. 10.—W. M. Stinson, who lives at Godfrey, Allen county, was here yesterday to have the famous Edmunds madstone applied to his little daughter, who had been bitten a few days ago by a mad dog. The child was reported to have been successfully treated by

Tutt's Pills

stimulate the TORPID LIVER, strengthen the digestive organs, regulate the bowels, and are unequalled as an

ANTI-BILIOUS MEDICINE,

In malarial districts their virtues are widely recognized, as they possess peculiar properties in freeing the system from that poison. Elegantly sugar coated.

Take No Substitute.

the stone and carried back home. Just what mischief the dog did is not known further than is believed to have bitten several dogs and some stock in that section. Mad dogs have been rather plentiful in this county the past few days, and it is possible that the one in Allen county strayed from this county. A dog believed to be mad bit a number of dogs and several cows and calves in the Eighty-eight section of this county, a few days ago.

'SASSAFRAK.'

Items about big sassafras trees are going the rounds in the Kentucky press. One near Atlanta, Ga., was seven feet in circumference, but former Leut. Governor Hindman writes of one growing in his yard twelve feet five inches in circumference, and one has been found in Simpson county measuring twelve feet eight inches in girth. Reading of these has impressed the Catlettsburg Tribune to publish the following:

Having read about the above, we are reminded that many years ago Lawrence county had a huge tree of that species. It was in 1875 that the writer was on Griffith's Creek, a short distance above the old Joseph Peck home and discovered a sassafras tree that we decided was by far the largest one we had ever seen. A measurement of it was taken and it proved to be seven feet, and eight inches in circumference. We learned afterwards that this tree was known by all the old citizens of that section and had long been regarded as the largest tree of its kind in the country. Whether or not the tree still re-3 mains we do not know. If it does it was for it has been thirty-seven years since it was measured. At any rate it beats the Atlanta tree, but does not compare with the Simpson county sassafras.

SMALL FARM WANTED.

Want to rent a small farm, 8 or 10 acres, within a mile of Louisville. House with at least five rooms. Will pay cash rent. Possession wanted by March 1st. Leave particulars at this office. tf.

WENATCHEE, WASH.

Your paper reaches us on Tuesday of each week and is read with interest, but there is such little correspondence from Webbville since Uncle Tip left. I wish some one would write regular from there it would be like a letter from home. We are having a fine winter and plenty of snow and a fine prospect for a good wheat crop and apples and all kinds of fruit.

Mrs. E. H. D. Webb left on the 29th for the East to buy spring millinery, suits and everything pertaining to her line of furnishings, and while gone will make a run on to her old home for a short visit as she wants to be back to Wenatchee about the fourth of March. She will be glad to see her many friends while spending a few days there.

HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness. Relief Obtained 'By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it. Insist on Thedford's! Price 25c.

Notice of Commissioner's Sale.

By virtue of a judgement of the Lawrence Circuit Court rendered at its January term 1912 in the case of M. H. Thompson vs. A. J. Dale, &c., undersigned Master Commissioner of said court will, on Monday the 19th day of Feb. 1912, at the front door of the court house in Louisa, Ky., offer for sale to the highest and best bidder the following described property, or so much thereof as may be necessary to produce the sum of \$125 with six per cent interest thereof from March 1st 1911, and the costs of said action; said land described as follows, to-wit: Situated on Nats creek, Lawrence County, Ky., beginning at an elm tree on the bank of Nats creek, opposite Julia Runyan's property running thence in a westerly direction to the top of the hill to a beach tree, the corner between Pleasant Dale, Joe Stepp and Reason Fitzpatrick, thence with the ridge with Joe Stepp's line to a black oak tree on top of the point, thence in a westerly direction with Wiley William's line to A. Preston's line, thence an easterly direction to a black oak tree on top of the hill, thence with A. Preston's line to a double hickory stump in the sulphur spring branch, thence down the branch to a creek and with the same to the elm tree, the place of beginning, containing 50 acres more or less and being the same farm sold to Pleasant Dale by Albert Boyd on Sept. 1st, 1904, deed book 38, page 498.

TERMS:—Sale will be made upon a credit of six months, purchaser to execute bond with approved security payable to undersigned, with lien retained on the property to secure the payment thereof.

F. L. STEWART, M. C. L. C. C.

Notice of Commissioner's Sale

By virtue of a judgment of the Lawrence Circuit Court rendered at its January term 1912 in the case of Late Wellman vs. Mary Holbrook &c., undersigned Commissioner will, on Monday the 19th day of Feb. 1912, being regular County Court day, at the front door of the court house in Louisa, Ky., offer for sale to the highest and best bidder the three-fifths undivided interests of Mary Holbrook, Mint Holbrook and C. M. Holbrook in that certain house and lot lying and being in the city of Louisa, Ky., bounded on the east by the C. & O. Ry. Co.'s property, on the west by the property of F. T. D. Wallace, and on the south by the property of Peter Alley, on the north by the property of J. L. Carey, being same property purchased from J. P. Gartin, deed book 46, page 10, and where Mary Holbrook now lives, for the purpose of satisfying the debts adjudged in said action, to-wit: \$250 with six per cent interest from June 23, 1910, until paid; also the further sum of \$30 with six per cent interest from Sept. 15th, 1911, until paid and the costs of said action.

TERMS:—Sale will be made upon a credit of six months, purchaser to execute bond with approved security to the Commissioner.

F. L. STEWART, M. C. L. C. C.

WINTER SCHOOL OF METHODS.

The Kentucky Sunday School Association is planning to have a "Winter School of Methods" in Louisville from Feb. 25, to March 3, inclusive.

Prof. W. J. McGlothlin, D. D. will be Dean of the school and the Faculty will be composed of Sunday School workers of international fame among whom we note the following: Dr. A. T. Robertson, Louisville, who will give a series of Bible Lectures on the Lessons for 1912; Dr. Franklin McElfresh, of Chicago, Ill., International Teacher Training Secretary; Dr. Rufus W. Weaver, Nashville, Tenn.; Miss Nannie Lee Frayser, Louisville, Elementary Superintendent of Kentucky, will conduct the Junior work; Mrs. Phoebe A. Curtis, Columbus, Ohio, Elementary Superintendent of Ohio and Henry Frederick Cope of Chicago, Ill., General Secretary of the Religious Education Association.

There will be much practical instruction for Pastors, Teachers and Sunday School workers in organization, methods and grading and many are expected from all parts of the State. Reasonable board can be secured and \$10.00 will safely defray all expenses after reaching Louisville, Come.

George A. Joplin, Genl. Secy

Messrs Bee Queen and Louis McGlothlin of East Fork, spent Saturday night with Mr. Patty Pope of this place.

There seems to be much sickness.

ICE CYCLES.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow.

Chamberlain's Cough Remedy is famous for its cure and is pleasant and safe to take.

For sale by All Dealers.

YATESVILLE.

Bros. Cassidy and McLean will start a series of meetings at Fallsburg on the 15th of February.

Miss Pearl Blankenship, of Fallsburg, was visiting her aunt, Mrs. Charles Carter, this week.

Paynter Ross was calling on Miss Bertha Kester Monday.

Ed Hatten made a business trip to Catlettburg Saturday.

Mr. Fred Stewart from Cadmus, Ky attended the spelling match at Buchanan Monday night.

John Ross, of Catlettburg was

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopoeia and relies on an adaptation of the method of wild animals in curing themselves.

It was Dr. R. V. Pierce, chief consultant to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandarin and queen's root, black cherry bark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

J. DONALD MATTHEWSON of Ossining, N. Y., says: "I suffered for over five years with what the doctors told me was a dilated condition of the stomach, associated with a catarrhal condition of the bowels, and nervous heart. I had tried enough mix, bismuth, gentian, rhubarb, etc., to last a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. To the 'Discovery' and also the 'Pleasant Pellets' and can truthfully say I am feeling better than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

J. D. MATTHEWSON, ESQ.

visiting his brother last week.

Mr. and Mrs. Joe Ross was visiting Henry Neal and wife Sunday.

John Strathair was calling on Miss Norma Lackwood Saturday evening.

Mack Childers was calling on Miss Ida Clarkson Sunday.

Miss Sophronia Neal was shopping at Durbin last week.

Mrs. Robert Strother, who has been on the sick list, is improving.

Mr. and Mrs. Charley Childers were visiting her parents Saturday and Sunday.

The sad news just reached here last week that E. W. Rinehart of Denver, Ohio, died Jan. 23, of erysipelas. He was well known throughout the county. He was a brother-in-law of Henry Neal of this place.

SUGAR.

SALTPETER.

Carl Wellman is in the barber business.

Henry Wellman, son of Calvin Wellman, has returned home. He is 21 years old. His father had not seen him since he was 2 years old. His mother died when he was a mere infant and his people took him west.

PETER PENDER.

FARM FOR SALE.

300 acres fine bottom and hill land at mouth of Cherokee, 3 miles from Blaine town, on road to Webbville, 7 miles from railroad. Railroad surveyed through farm and sure to be built. 50 to 60 acres very rich bottom. 12 to 25 acres overflows with backwater in winter or spring, but no crop destroyed by water for 33 years. Yield 50 to 80 bushels corn per acre. 200 acres cleared and in grass and crops. 100 acres in timber, enough to keep up place 50 years. Good school half mile, graded school 3 miles away. Water and springs in every field 3 coal banks open. 2 to 4 feet. Good neighborhood. Reason for selling, health failed and farm running down since I left it Apply to F. R. Moore, Louisa, Ky. or go look for yourself.

Also, 260 acres 4 miles from Louisa, on Blaine. Good buildings, good roads, and good hill land, some bottom. Near best college in State. Fine neighborhood, school house one mile distant. Prices reasonable.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIED
MOTHERS AS THEY JOIN
THE HOME CIRCLE.

The way to get the best there is
in people is to give them your best.

Home is where mother lives. And
whether you be prince or peasant,
one of the sweetest spots on earth
is the abode of your mother.

Although housekeeping and some-
making are the most important of
all things, yet they are sought after
the very least. Girls get married
who do not know how to make a
loaf of bread or boil a potato, ex-
pecting somehow that these things
will take care of themselves, and
they can live happy with a man in
his ignorance, knowing too that the
heart and stomach of man are so
friendly that they cannot be sepa-
rated. Ignorance cannot be made
bliss in housekeeping, and there is
no surer way to lose the respect of
a husband than to spoil his dinner.
He can not thrive long on purely a
love diet.

One reason why so many girls
and boys, men and women, too, are
uninteresting, is because they try
so hard to be like somebody else
rather than be content to remain
himself or herself in life. In na-
ture you don't see an oak posing as
a willow, or a black duck as a yel-
low leg, or a horse as a cow, or a
lily as a rose, or a lilac as a peony,
or a dog as a cat. Be natural and
you'll be all right.

How much better is a plain, quiet
Christian home where all is peace
and cordiality, the neighbors heart-
ily welcome to come and go at will,
and freed from the pestering, sense-
less conventionalities of fashionable
life! Why should our earthly life
which at best cannot continue a
hundred years be fretted and bur-
dened and worn out prematurely by
vain efforts to life the manners of
futility, irreligious, self-seeking,
is of devotee of pleasure?

It will matter what a girl's accom-
paniment may be, her education is
incomplete if she has not some
knowledge of bake-ology, boil-ology,
roast-ology, stitch-ology and mend-
ology. Even if she should never
be required to do the work herself,
she ought to know whether it was
done in a proper manner.

The family table, which ought to
be the place for pleasant discussion
and cheerfulness, often becomes the
place of perilous expedition. If
there be any blessing asked at all,
it is cut off at both ends and with
the hand on the carving knife. He
counts on his fingers, making esti-

mates in the interstices of the re-
past. The work done, the hat goes
to the head and he starts down the
street and before the family have
arisen from the table he has bound
up another bundle of goods and
says to the customer: "Anything
more I can do for you today, sir."
A man has more responsibility than
those which are discharged by put-
ting competent instructors over his
children and giving them a drawing
master and a music teacher. The
physical culture of the child will not
be attended to unless the father
looks to it. He must sometimes
lose his dignity. He must unlimber
his joints. He must sometimes
lead them out to their sports, for-
get the severe duties of life some-
times to fly the kite and trundle the
hoop, and chase the ball, and jump
the rope with the children, ought
never to have been tempted out of
a crusty and unredeemable solitari-
ness. If you want to keep your
children away from places of sin,
you can only do it by making your
home attractive.

Home Sweet Home.

The home, be it ever so humble
is the one sweet spot to which all
eyes are longingly turned, and from
which all happiness radiates.

The proud boast of the old Eng-
lish common law that "a man's
home is his castle." The four winds
of heaven might blow through its
chinks and crannies, but the king
himself might not cross its thresh-
old unbidden. Only the law's stern
necessity in pursuit of crime could
authorize an unwelcome intrusion.

The sanctity of former times still
scrupulously surrounds it, and the
sacredness of its portal has been
but enhanced by the advancement
of civilization. The modern homes
need neither towers, battlements,
nor bastions to protect it from the
assaults of the powerful. The hum-
blest citizen to defend his lowly
shack can invoke the protecting arm
of the whole nation.

The governments of all the world
foster the love of home. Liberal
laws are enacted with this end in
view. The public domain is gener-
ously bestowed upon bonafide settlers.
The various states, without, we be-
lieve, a single exception, have ex-
empted the homes from seizure for
even a just debt. In short, the pro-
tection and sacredness of the home
goes side by side with that of the
person. It is the commendable de-
sire of every worthy citizen to be
the owner of his own home in fee
simple, and to encourage this desire
have all these beneficent laws been
enacted.

A true lady is as much a lady
washing her dinner dishes, pre-
paring the vegetables for dinner,
cleaning lamps and scrubbing floors
as when she is bending over her
embroidery frame or easel in the
pleasant sitting room. If she is so
fortunate as to possess a servant
she will use refined language and
as gentle a voice in speaking to
her as she uses in her reception
room entertaining the most cultured
among her friends.

Can you believe your senses?
When two of them, taste and smell,
having been impaired if not utterly
destroyed by Nasal Catarrh, are fully
restored by Ely's Cream Balm,
can you doubt that this remedy
deserves all that has been said
of it by thousands who have used
it? It is applied directly to the af-
fected air-passages and begins its healing
work at once. Why not get it today?

WEST VIRGINIA NEIGHBORS.

NEWS FROM JUST
ACROSS THE
WEST V.

At one o'clock Monday morning
fire was discovered in the residence
of G. Steele in the Straton Hollow,
and, in spite of the efforts of the
firemen the flames spread rapidly,
totally destroying the house and
contents and the residence adjoining
owned by John L. Buskirk and
occupied by Jas. Rouse.

The house occupied by Mr. Steele
was owned by W. W. Perry and
was valued at \$1250 with \$1000
insurance, while Mr. Buskirk's house
was valued at \$1000 with \$800 in-
surance.—Logan Democrat.

Last week after the supreme
court of appeals issued a peremptory
writ of mandamus directing the
old council to assemble forth with
as a canvassing board and rescind
all former orders, and issue a cer-
tificate of election to J. Luther
Davis, who had been counted out.
Mayor Lambert and councilmen
Hughes and Whitaker alone ap-
peared for that purpose Wednesday
evening. No quorum was present.
Recorder C. W. Thompson announce
that he was leaving for Cincinnati
Monday, and councilmen Harris, El-
fort and Eakin were also out of
town.—Tri-State Enterprise.

More specifically stated some
months ago Mr. B. J. Prichard ac-
quired a franchise for gas pipe lines
through the streets and alleys of
Wayne. A few weeks since he and
his associates in development com-
pleted a gas well in town of suffi-
cient production to supply local de-
mand. More recently they have
made a contract with the county
commissioners to supply the county
buildings with gas for light and fuel.
The Wayne bank, Mr. Prichard's law
office and his residence will also
be supplied. A flaming torch from
the Southwest corner of the public
square will illuminate Belvart ave.,
from the N. & W. depot, to the
post office by night. The pipe line
already down at points mentioned
and gas will be turned in as soon
as plumbing which is well along, is
completed. We hope in the near fu-
ture to see the whole town with gas
fuel and light.—Tri-State Enterprise.

IN MEMORY.

Death has again visited our com-
munity and has taken from us our
dear cousin, Son of Mr. and Mrs.
D. B. Johnson. Johnnie was a kind
and loving cousin. As we inscribe
to his memory this little memoir of
his life, yet words can not express
the loss we feel since the swift
winged angel came and called John-
nie. He always threw a ray of sun-
shine around all his associates
would speak a cheering word to
him when he was in trouble. Johnnie was sick
but a short time, but God in his mer-
cy saw it fit to take him and trans-
plant him in a home where the
flowers always bloom, where sickness
nor death never comes, although we
miss Johnnie around the home, and
his many pleasant visits, yet he
has paid the debt we all must pay.
He said he only regretted he had
not done more for the loving Mas-
ter. He was away from father and
mother, yet all was done that loving
hands could do. He told them to
send for his mother, she could cure
him, they did so. She came as fast
as possible to the bedside of her son.
She at once began to pray for the
Lord to convert her only son, and
her prayers were answered, and
God thought it best to take him
home to live forever. He was in-
dustrious striving hard for an ed-
ucation. He was brought back and
buried in the old family graveyard
by his grand-father H.C. McKinstor.
Services were conducted by Rev.
Williams.

KEITH OF THE BORDER

A TALE OF THE PLAINS

By RANDALL PARRISH

Author of "MY LADY OF THE SOUTH,"
"WHEN WILDERNESS WAS KING," etc.

Illustrations by DEARBORN MELVILL.

Copyright, A. G. McClurg & Co., 1908.

SYNOPSIS.

CHAPTER I.—Jack Keith, a typical border plainsman, is riding along the Santa Fe trail on the lookout for roaming bands of savages. Keith had won his name as a singer in a Virginia regiment during the civil war. He had left the service to find his old southern home in Texas. His friends scattered, and the fascination of wild western life had allured him. He notices a camp fire at a distance and then sees a team attached to a wagon and at full gallop pursued by men on ponies.

CHAPTER II.—When Keith reaches the wagon the raiders have massacred two men, shot the horses and departed. He searches the victims finding papers and a locket with a woman's portrait. He resolves to hunt down the murderers.

CHAPTER III.—Keith reaches Carson City and is arrested there charged with murdering and robbing the two travelers. His accuser is given as Black Bart, a notorious ruffian.

CHAPTER IV.—They can readily swear the crime on Keith. The latter goes to jail fully realizing the peril of swift justice. A companion in his cell is a negro, who tells him he is Ned and that he knew the Keith family back in Virginia.

CHAPTER V.—Ned knows about the murdered men from the description of Keith. He says one was John Sibley, the other Gen. Willis Waite, formerly an officer in the Confederate army.

CHAPTER VI.—The plainsman and his humble friend escape from the cell.

CHAPTER VII.—The two fugitives become lost in the sand desert.

CHAPTER VIII.—They come upon a well and find its lone occupant to be a beautiful young girl. Keith recognizes her as a singer he saw at Carson. She is a sister to the girl he sought.

CHAPTER IX.—The girl explains that she came there in search of a brother who had deserted from the army. She had met a Mr. Hawley, who had induced her to come to the cabin while he sought to locate her brother.

CHAPTER X.—Hawley appears, and Keith in hiding recognizes him as the notorious Black Bart. Hawley tries to shake him to the ground.

CHAPTER XI.—There is a terrific battle in the darkened room in which Keith overcomes Black Bart. Horses are appropriated, and the girl who says that her name is Hope, joins in the escape.

CHAPTER XII.—Keith explains his situation as a fugitive from justice.

CHAPTER XIII.—The fugitives make for the ford of the Arkansas aiming to reach Fort Larned.

CHAPTER XIV.—Here the girl is left in charge of the hotel landlady.

CHAPTER XV.—Keith is riding Black Bart's horse, and in the saddle-bags discovers a letter bearing the name of Christine MacLaure, and he believes Miss Hope deceived him in disclosing that name. Hope tells the landlady that she is the daughter of General Waite.

CHAPTER XVI.—The fugitives Keith and Ned drift into Sheridan. Here Keith meets an old friend named Fairbain, a doctor. The plainsman speaks of the daughter of General Waite, but Fairbain insists that he saw the general alive in Sheridan only the day previous.

CHAPTER XVII.—At the tavern Keith is disturbed by the talk of two men in an adjoining apartment. One of them speaks of trying to find Black Bart. He calls his companion Fred Willoughby, which is the assumed name of the brother of Hope Waite. When the other man is gone, Keith enters the room.

CHAPTER XVIII.—Willoughby acknowledges that Hope is his sister, but is evasive about Christine MacLaure.

CHAPTER XIX.—An overheard conversation convinces Keith that Hope Waite is not the stage singer Christine MacLaure, but that Black Bart has some plot in progress involving the two girls and the landlady brother.

CHAPTER XX.

Hope Goes to Sheridan.

The discovery of the locket which had fallen from about Keith's neck made it impossible for Hope to remain quietly for long in the hotel at Fort Larned. The more carefully she thought over the story of that murder at the Cimarron Crossing, and Keith's tale of how he had discovered and buried the murdered bodies, the more assured she became that that was where this locket came from, and that the slain fugitive must have been her own father. She never once questioned the truth of Keith's report; there was that about the man which would not permit of her doubting him. He had simply failed to mention what he recovered from the bodies, supposing this would be of no special interest.

Mrs. Murphy, hoping thus to quiet the apprehensions of her charge, set herself diligently at work to discover the facts. As her house was filled with transients, including occasional visitors from Carson City, and was also lounging headquarters for many of the officers from the nearby fort, she experienced no difficulty in picking up all the floating rumors. Out of these, with Irish shrewdness, she soon managed to patch together a consistent fabric of fact.

"Shure, honey, it's not so bad the way they tell it now," she explained, consolingly. "Nobody believes now it was yer father that got kilt. It was two fellers what stole his outfit. 'Twas an 'all an' was drivin' off wid 'em inter the sand hills. Divil a wan does know who kilt 'em, but there's some ugly stories travelin' about. Some says Injuns; some says the posse run 'em down; an' Black Bart an' his dirty outfit, they swear it was Keith. O'f course me own notion. Anyhow, there's 'bout three hundred dollars, some mules, an' a lot o' valuable papers missin'."

"But if it wasn't father, where is he now?"

"That's what O'f been tryin' to find out. First off he went out to the Cimarron Crossing, guarded by a

squad o' cavalry from the fort here. Tommy Caine went along, an' told me all about it. They dug up the bodies, but niver a thing did they find on 'em—not a paper, nor a dollar. They'd bin robbed all right. The owd G'neral swore loike a wild mon all the way back. Tommy said, an' the first thing he did at Carson City was to start huntin' fer 'Black Bart'. He was two days gittin' on the trail av him; then he heard the feller was gone away trapin' after a singin' or gancin' gyarl called Christie MacLaure. She was supposed to be ayther at Topeky or Sheridan. A freighter told the owd man she was at Sheridan, an' so he started there overland, hopin' ter head off 'Black Bart'. O' reckon we could a towld mor'n that."

"What do you mean?"

"Why shure, honey, what's the use tryin' ter decave me? Dildn't Jack Keith, wid his own lips, tell me ye was Christie MacLaure?"

"But I'm not! I'm not, Mrs. Murphy. I don't even know the woman. It is such a strange thing; I cannot account for it—both those men mistook me for her, and—and I let them. I didn't care who the man Hawley supposed me to be, but I intended to have told Mr. Keith he was mistaken. I don't know why I didn't, only I supposed he finally understood. But I want you to believe, Mrs. Murphy—I am Hope Waite, and not Christie MacLaure."

"It's little the loss to ye not ter be her, an' O'f thinkin' loike Jack Keith wid his own lips, tell me ye was Christie MacLaure?"

"I do not in the least know. He must have induced me to go to that place in the desert believing me to be the other woman. Yet he said nothing of any purpose; indeed, he found no opportunity."

Mrs. Murphy shook her head disparagingly.

"It was shure some divilment," she asserted, stoutly. "He'll be up to some trick wid the poor gyarl; O' know the loikes av him. Shure, the two av yer must look as much aloike as two pawns in a pod. Loike now, it's a twin sister ye've got?"

Hope smiled, although her eyes were misty.

"Oh, no; Fred and I were the only children; but what shall I do? What ought I to do?"

The Irish mouth of Kate Murphy set firmly, her blue eyes burning.

"It's not strong O'f an advisin'," she said, shortly. "But if it was me O'ld be fer foindin' out what all this mix-up was about. There's somethin' mighty queer in it. It's my notion that Hawley's got hold av thim papers av yer father's. The owd gint thinks so, too, an' that's why he's so hot afther catchin' him. May the divil admoire me av O'f know where this MacLaure gyarl comes in, but O'f bet the black divil has set her marked fer some part in the play. What would O'f do? Be goory. O'f go to Sheridan, an' foind the G'neral, an' 'till him all I knew. Maybe he could piece it together, and guess what Hawley was up ter."

Hope was already upon her feet, her puzzled face brightening.

"Oh, that is what I wanted to do, but I was not sure it would be best. I can't get there from here?"

"Ye'd better take the stage back to Topeky; loike they'd be runnin' thim from there on the new road. It'll be alsy fer me ter foind out from some av the lads down below."

The only equipment operating into Sheridan was a construction train, with an old battered passenger coach coupled to the rear. A squad of heavily armed infantry rode along, as protection against possible Indian raiders, but there was no crowd aboard on this special trip, as all construction work had been suspended on the line indefinitely, and most of the travel, therefore, had changed to the eastward. The coach used had a partition run through it, and, as soon as the busy trainmen discovered ladies on board, they unceremoniously drove the more bibulous passengers, protesting, into the forward compartment. This left Hope in comparative peace, her remaining neighbors quiet, taciturn men, whom she looked at during the folds of her veil during the long, slow, exasperating journey, mentally guessing at their various occupations. It was an exceedingly tedious, monotonous trip, the train slackening up and jerking forward, apparently without slightest reason; then occasionally achieving a full stop, while men, always under guard, went ahead to fix up some bit of damaged track, across which the engineer dared not advance. At each bridge spanning the numerous small streams, trainmen examined the structure before venturing forward, and at each stop the weary passengers grew more impatient and sarcastic, a perfect stream of fluent profanity being wafted back whenever the door between the two sections chanced to be left ajar.

Hope was not the only woman on board, yet a glance at the others was sufficient to decide their status, even had their freedom of manner and loud talking not made it equally obvious. Fearful lest she might be mistaken for one of the same class, she remained in silence, her veil merely lifted enough to enable her to peer out through the grimy window at the barren view slipping slowly past. This consisted of the bare prairie, brown and desolate, occasionally intersected by some small watercourse, the low hills rising and falling like waves to the far horizon. Few incidents broke the dead monotony; occasionally a herd of antelope appeared in the distance, silhouetted against the sky-line, and once they fairly crept for an hour through a mass of buffalo graz-

ing so close that a fusillade of guns sounded from the front end of the train. A little farther along she caught a glimpse of a troop of wild horses dashing recklessly down into a sheltering ravine. Yet principally all that met her straining eyes was sterile desolation. Here and there a great ugly water tank reared its hideous shape beside the track, the engine always pausing for a fresh supply. Beside it was invariably a pile of coal, a few construction cars, a hut half buried under earth, loop-holed and barricaded, with several rough men loafing about, heavily armed and inquisitive. A few of these points had once been terminal, the surrounding scenery evidencing past glories by piles of tin cans, and all manner of debris, with occasionally a vacant shack, left deserted and forlorn.

Wearied and heartsick, Hope turned away from this outside dreariness to contemplate more closely her neighbors on board, but found them scarcely more interesting. Several were playing cards, others moodily staring out of the windows, while a few were laughing and talking with the girls, their conversation inane and punctuated with profanity. One man was figuring on a scratch pad, and Hope decided he must be an engineer employed on the line; others she classed as small merchants, saloon-keepers, and frontier riff-raff. They would glance curiously at her as they marched up and down the narrow aisle, but her veil, and averted face, prevented even the boldest from speaking. Once she addressed the conductor, and the man who was figuring turned and looked back at her, evidently attracted by the soft note of her voice. But he made no effort at advances, returning immediately to his pad, oblivious to all else.

It was growing dark, the outside world, now consisting of level plains, fading into darkness, with a few great stars burning overhead. Trainmen lit the few smoking oil lamps screwed against the sides of the car, and its occupants became little more than dim shadows. All by this time were fatigued into silence, and several were asleep, finding such small comfort as was possible on the cramped seats. Hope glanced toward the heretofore noisy group at the rear—the girl nearest her rested with unconscious head pillowed upon the shoulder of her man friend, and both were sleeping. How haggard and ghastly the woman's powdered face looked, with the light just above it, and all semblance of joy gone. It was as though a mask had been taken off. Out in the darkness the engine whistled sharply and then came to a bumping stop at some desert station. Through the black window a few lanterns could be seen flickering about, and there arose the sound of gruff voices speaking. The sleepers inside, aroused by the sharp stop, rolled over and swore, seeking easier postures. Then the front door opened, and slammed shut, and a new passenger entered. He came down the aisle, glancing carelessly at the upturned faces, and finally sank into the seat directly opposite Hope. He was a broad shouldered man, his coat buttoned to the throat, with strong face showing clearly beneath the broad hat brim and lighted up with a pair of shrewd, kindly eyes. The conductor came through, nodded at him, and passed on. Hope thought he must be some official of the road, and ventured to break the prolonged silence with a question:

"Could you tell me how long it will be before we reach Sheridan?"

She had partially pushed aside her veil in order to speak more clearly, and the man, turning at sound of her voice, took off his hat, his searching eyes caustic.

"Well, no, I can't, madam," the words coming with a jerk. "For I'm not at all sure we'll keep the track. Ought to make it in an hour, however, if everything goes right. Live in Sheridan?"

She shook her head, uncertain how frankly to answer.

"No loss to you—worst place to live in on earth—no exceptions—I know—been there myself three months—got friends there likely?"

"I hardly know," she acknowledged dolefully. "I think so, but I shall have to hunt some place in which to stay tonight. Can you tell me of some—some respectable hotel, or boarding-house?"

The man wheeled about, until he could look at her more clearly.

"That's a pretty hard commission, madam."

She had partially pushed aside her veil in order to speak more clearly, and the man, turning at sound of her voice, took off his hat, his searching eyes caustic.

"Well, no, I can't, madam," the words coming with a jerk. "For I'm not at all sure we'll keep the track. Ought to make it in an hour, however, if everything goes right. Live in Sheridan?"

She shook her head, uncertain how frankly to answer.

She shook her head, uncertain how frankly to answer.

"No loss to you—worst place to live in on earth—no exceptions—I know—been there myself three months—got friends there likely?"

—get you in there if I have to mesmerize the clerk—you'll find it a bit noisy though."

"Oh, I thank you so much. I don't mind the noise, so it is respectable."

He laughed, good humoredly.

"Well, I don't propose to vouch for that—the proprietor ain't out there for his health—but, I reckon, you won't have no serious trouble—the boys mostly know a good woman when they see one—which isn't often—anyhow, they're liable to be decent enough as long as I vouch for you."

"But you know nothing of me."

"Don't need to—your face is enough—I'll get you the room all right."

She hesitated, then asked:

"Are you—are you connected with the railroad?"

"In a way, yes—I'm the contract surgeon—had to dig a bullet out of a water-tank tender back yonder—fellow howled as though I was killing him—no nerve—mighty poor stuff most of the riff-raff out here—ball wasn't in much below the skin—Indian must have plugged him from the top of the bluff—blame good shot too—ragged looking slug—like to see it?"

She shook her head energetically.

"Don't blame you—nothing very uncommon—get a dozen cases like it a day sometimes—stay in Sheridan, show you something worth while—very pretty surgical operation to-morrow—come round and get you if you care to see it—got to open the stomach—don't know what I'll find—like to go?"

"Oh, no! I'm sure you mean it all kindly, but—but I would rather not."

"Hardly supposed you would—only knew one woman who cared for that sort of thing—she was nursing for me during the war—had a half lip and an eye like a dagger—good nurse though—rather have your kind round me—ever nurse any? Could get you a dozen jobs in Sheridan—new prospects every night—fifty dollars a week—what do you say?"

"But I'm not seeking work, Doctor, smiling in spite of her bewilderment."

"I have money enough with me."

"Well, I didn't know—thought maybe you wanted a job, and didn't like to ask for it—have known 'em like that—no harm done—if you ever do want anything like that, just come to me—my name's Fairbain—everybody knows me here—operated on most of 'em—rest expect to be—Damn that engineer! don't believe he knows whether he's going ahead or backing up."

He peered out of the window, pressing his face hard against the glass.

"I reckon that the Sheridan he's whistling for now—don't be nervous—I'll see you make the hotel all right."

(To be continued next week.)

NOTES From MEADOWBROOK FARM By William Pitt

Maple and ash posts will last about three or four years; excepting the very best quality of yellow ash, and it is too dear to be used as fence posts.

Mighty easy to feed new corn to the hogs, stalks and all, but you will find that if the corn is first run through the shredder the animals will eat it up clean.

Shocked corn accustoms cattle to the taste of ear corn, but compels them to eat so much roughage in connection that there is very little danger of over-eating.

When a farmer thinks of buying a dairy bull to improve his herd, he should look to the individuality of the bull, also the backing, not the "cheapness of the price."

If a pig is grown right and fed right there is no time in the life of a pig when he will make any more pork than between 8 weeks and 3 months in proportion to feed consumed.

The horse population of the world is estimated at more than 111,000,000, of which about 43,000,000 are in Europe, 28,000,000 in North America and 11,000,000 in Asia.

Plow up your old, worn-out orchard this fall and put some manure, compost, ashes and bones in the trenches. You'll be surprised next year at the quick response of your trees.

A daily record should be kept of each cow in the stable. In a year's time a dairyman will then know by practical demonstration what cows are paying him, and those that are not.

Pumpkins will freeze if you don't watch out, and frozen pumpkins are of no good to anything. Good, ripe, sound pumpkins are enjoyed by the cows, and help the milk flow very much.

You May Talk to One Man
But an advertisement in this paper talks to the whole community.
Catch the Idea?

sell the poor cow.

Ewes need succulent feed.

The fall colt is nearly clear gain.

Fattening cattle should have plenty of salt.

Frost-bitten grass has no food value to speak of.

Both oats and barley are good feeds for young pigs.

See that the coops and henhouse is free from lice and mites.

Well cured ensilage corresponds with the nature of the cow.

The chief characteristics of the roaster are speed and stamina.

Horses that have a light hay diet are seldom affected with heaves.

Cleanliness and fresh air will usually prevent epidemics of any kind.

Testing is the only method by which we can cut out the robbers in the herd.

The brown leghorn or the houdan feather quickly and soon reach maturity.

The colts and unused horses should spend most of each pleasant day in the paddock.

Have no hesitation in disposing of the unprofitable cows. They are a mistake.

Sheep do not drink much water, but what little they drink must be absolutely clean.

Corn fodder that is shredded or split, and ground fine, makes a very satisfactory feed.

Have an orchard book and keep a record of the trees planted and also the variety of fruit.

Free range for hogs does not mean that they should be allowed to run over our neighbor's farm.

The late hatching eggs from some of the small quick-growing breeds can be raised at the least cost.

Do not sell all the best. If anyone is entitled to the best fruit produced on the farm, it is the family.

Pumpkins are a valuable succulence for cows, holding much the same place in the ration as silage and roots.

If you think of setting out an orchard and have had no experience, better hire a good man to show you how.

The practice of turning the cows on rye and winter barley that is sown for early spring feed, is not a good practice.

The cream should always be strained into the churn through a fine wire sieve or a dipper, with a perforated tin bottom.

Well-bred heifer calves may often be purchased cheaply of people who live in town and keep but one cow for family use.

Ensilage is not considered good for sheep, and if it is fed at all it should be fed very sparingly and at intervals of two or three days.

Each cow's udder should be thoroughly cleansed before milking and the hands of the milker should be absolutely clean and dry.

Clean sound oats make an excellent ration for the pigs. If this is fed to them regularly during the fattening period the pork will be superior.

Stone fruits, such as peaches, apricots, plums and nectarines, should be planted the latter part of March, before the buds commence to swell.

Farmers who undertake to grow in any section of the country what nature does not intend them to grow soon find it out, and usually by hard experience.

It pays to have the farm fenced hog tight and cross fenced into small fields and to have plenty of yards to keep hogs of different sizes and ages separated.

If a yearling ram is used watch him when first admitted to the flock. Sometimes they are not breeders. It is well to look after the old ones too. They sometimes quit.

The horse population of the world is estimated at more than 111,000,000, of which about 43,000,000 are in Europe, 28,000,000 in North America and 11,000,000 in Asia.

Plow up your old, worn-out orchard this fall and put some manure, compost, ashes and bones in the trenches. You'll be surprised next year at the quick response of your trees.

A daily record should be kept of each cow in the stable. In a year's time a dairyman will then know by practical demonstration what cows are paying him, and those that are not.

Pumpkins will freeze if you don't watch out, and frozen pumpkins are of no good to anything. Good, ripe, sound pumpkins are enjoyed by the cows, and help the milk flow very much.

MUTTON AND CAPER SAUCE

Famous Chef Gives Rule for Preparing This Most Appetizing Dish.

Boiled mutton and caper sauce is familiar to every housekeeper, but all may not know the best way of preparing it. The following rule is recommended by a world famous chef: Procure a fine six-pound leg of mutton and beat the meat gently with a cleaver. Put in a large saucepan, cover with cold water, add two sliced carrots, one sliced turnip, two sliced onions, one sliced leek, two small branches of soup celery, two bay leaves, one sprig of thyme, two olives, one bean of garlic, a good sized tablespoonful of salt and a teaspoonful of pepper. Cover the pan and let the whole boil for an hour and ten minutes. Remove the meat, place it upon a hot platter garnished with a few sprays of parsley and serve with caper sauce.

For caper sauce mix together over the fire two tablespoonfuls of flour and one tablespoonful and a half of butter. Add slowly a pint of veal stock, stirring continually. Season with half a tablespoonful of salt and a saltspoonful of pepper. Reduce the sauce by cooking it to half its original quantity. Add two tablespoonfuls of capers and let the whole boil for about two minutes. Dilute an egg yolk with half a gill of cream. Add this to the sauce and stir the whole for a moment or two. Then pour into a sauce bowl and serve. Water may be used instead of stock, which makes a good sauce, but it is not as rich. It will be in that case an ordinary "white sauce," but with additions which hide its real character.

RHUBARB IS BEAUTY MAKER

Women Should Eat It the Year Round—Recipe for Jarred Rhubarb.

Rhubarb is such a beauty maker that women should eat it the year round. It acts on the liver and keeps the complexion clear, counteracting all tendency to biliousness.

It behooves girls to lay in a supply of this vegetable during the rather short season that it lasts. By following exactly the directions given the green can be had all through the winter with much less trouble than is forced in the cellar, as is often done.

Buy nice, fresh rhubarb, scrub it carefully, and cut it into small pieces as for pie or stewing. Pack into jars, filling rather tightly. Put in August. This jars when filled in a deep dish of 14 inches.

a vessel taller than the jar, and fill with cold water from the spigot.

Put on the lids and screw tight under water, remove the jar, wipe the outside dry, and put in a dark, cool closet until ready for use.

Nothing hard about that. Yet if the lids are made airtight the rhubarb keeps perfectly until opened.

WONDERFUL CATARRH CURE

Glenhays, W. Va., Jan. 1, 1912.

Mr. W. D. Fitzpatrick,

Glenhays, W. Va.

Dear Sir:—I bought one box of your

great catarrh cure and used it

according to directions, and now I

feel well and also swear that I am

well. I had had the catarrh of

the nose and head for five years.

I had lost all hopes of ever getting

a treatment that would cure me,

but yours has done the work and

I am so thankful to you, for you

no doubt have saved my life as we

are aware that catarrh causes con-

sumption. I can find words to ex-

press my thoughts and apprecia-

tions towards you and your great

catarrh remedy as I would like to.

Yours Very Truly,

ORA ARTRIP.

This the 1st day of Jan., 1912.

Ora Artrip personally appeared be-

fore me and duly swore that the

above statement was true to the

best of his knowledge, so help his

God.

Given under my hand this the 1st

day of Jan., 1912.

W. J. CRUM,

Notary Public.

My commission expires Nov. 27th

1919.

If your druggist does not sell this

remarkable remedy you can get it

direct from The W. D. FITZ-

PATRICK CATARRH COMPANY

GLENHAYS, W. VA.

Put up in 25c 50c and 1.00

sizes.

The river was closed by ice at

this point last Saturday for the

second time this season. It is still

frozen over.

Geo. Diamond and Fred Roberts were visiting at Twin Branch last Sunday.

A LONELY GIRL.

REDBUSH.

School is progressing nicely at this place under the management of W. E. Daniel.

M. P. Ferguson and wife, who had been visiting their daughter, Mrs. Jesse Rose, passed through here en route to their home in Arizona.

Sam L. Holbrook and his sister Hester, of Greenup county, are attending school at this place.

F. B. Hamilton's warm house burned recently, burning up all their winter provisions.

James Kimbleton and Miss Lolla Lomaster left school on account of sickness.

Mrs. Victoria Osborn, of this community has been sick for some time, but is improving.

Misses Connie and Emma Williams visited Misses Bertha and Hester Holbrook Sunday.

Mr. and Mrs. Harry Dorton, who have recently married, have moved out where they will enjoy a pleasant home.

Rafe Williams and Little Mae Daniels visited their grand parents Mr. and Mrs. Henry Daniel, Saturday and Sunday.

Conley Wallen, formerly of this place, now of Catlettsburg, has been visiting relatives here this week.

Mrs. R. B. Hamilton, of this place has been very sick but is improving.

Miss Macie Jewel Bond visited her sister, Mrs. Laura Williams, Sunday.

Bob Holbrook and Mason Coe, of Elkfork, Ky., visited Misses Mattie Williams and Bertha Daniels.

Cam L. Holbrook visited his sister, Mrs. Manda McDowell, of Bruah Saturday and Sunday.

Linda Evans, who is attending school here, visited home folks Saturday and Sunday.

James Rimple and Earl Auxier, of Manilla are attending school here.

Squire Cleveland Daniel, of Flat Gap, visited relatives, at this place Sunday night.

DESSA DAKER.

MORGANS CREEK.

Rev. James Harvey failed to fill his appointment at this place on Saturday night and Sunday.

Arthur Foster visited his father and mother on this creek last Saturday.

Thomas Christon and George Holley left here on the 5th for Chataway, where they will work in the mines.

Born, to Eliza Rice and wife, a fine boy weight 15 lbs.

Born, to James Bradley and wife, a fine boy.

Andrew Adkins has happened with many misfortunes during this cold weather, losing a horse, a cow one dog, a goat, three hogs, several chickens, three calves and a number of ducks and turkeys. It is thought by the neighbors that poison might have been used by some sneaking enemy.

Jerome Preece of Deephole is working for Jessie Adkins.

Arthur Burchett of Deephole happened to the misfortune of mashing his foot while splitting rails for James Clark last Saturday.

C. H. Preece made a business trip to Huntington, last week.

Miss Annie Hardin passed up this creek last week.

WHISTLEN, DICK.

SUNNY SIDE, W. VA.

Mrs. Charlie Lynch is on the sick list.

Sammie Wellman of Indiana is visiting home folks.

Miss Fannie and Miss Belle Webb were visiting their brother Willie of Saltwater Sunday.

Miss Minnie Holbrook returned home Thursday.

Wayne Lynch has been visiting Mr. Riggs recently.

Sammie Wellman visited Tarklin and reported dry times.

Lys Wellman and Harland Bartman were visiting Warren Robinson Thursday night.

Sammie Wellman entertained quite a number of young folks at his home Thursday all reported a nice time.
